EDUCATION

Guru Jambheshwar University of Science and Technology, Hisar, Haryana

CGPA: 7.02

B.Tech (Computer Science and Engineering), 2025

EXPERIENCE

Sparsh CCTV , Panipat

JUNE - Present

- Developing and maintaining Flutter-based mobile applications for CCTV and surveillance systems, integrating **real-time data handling**, **device interaction**, and **secure APIs**.
- Collaborating with **hardware and backend teams** to deliver **stable, high-performance**, and **secure mobile-to-device communication** for production deployments.

Flutter Developer Intern, Reshape Technologies Pvt Ltd, Jaipur

FEB - MAY 2025

- Developed and integrated **Auto Sleep** and **Step Detection** features using **Android background services**, improving accuracy and reliability of health tracking
- Built and optimized **cross-platform UI components and Home Screen Widgets** for **Android and iOS**, improving overall app performance, responsiveness, and user experience.

Flutter Developer Intern, Reshape Technologies Pvt Ltd, Jaipur

JUN - AUG 2024

- Integrated **AI-driven food detection and meal logging** using **voice and image recognition** to automate nutrition tracking.
- Implemented **streak features, UI enhancements, and performance optimizations**, improving app engagement and overall user experience.

Core Team Member, Coder Club| GJUS&T, Hisar

2023-2024

- Organized coding events and workshops, enhancing collaboration and engagement.
- Helped boost student interaction with the club by 50% through inclusive decision-making.

PROJECTS

Anime-World | Flutter, REST APIs, Clean Architecture (MVVM) [github](#)

- Developed a Flutter app with Clean Architecture (MVVM) to search, explore, and view anime details using REST APIs, featuring a dynamic UI and smooth animations.

A-Health | Flutter, Health Connect, AI Integration [github](#)

- Built a health app to manage sleep, steps, water intake, and nutrition using HealthConnect and AI for food recognition, ensuring seamless data syncing and tracking.

Easy-Learning | Flutter, Firebase, APIs [github](#)

- Created a Flutter app with Firebase for authentication, storage, and database, offering video lectures, PYQ viewer, and an online player for seamless learning.

TECHNICAL SKILLS

Flutter, Dart, Firebase, Java, Node.js, MySQL, MongoDB

Developer Tools: IntelliJ, VS Code, Git, Android Studio, Figma, Asana, Jira

HONORS AND AWARDS

- **Projectathon Competition:** Earned 3rd prize in first semester, demonstrating strong Strategic Troubleshooting and teamwork skills.
- **GDSC Solution Challenge** shortlisted participant in the GDSC Solution Challenge, showcasing innovative problem-solving abilities.
- **Flipkart Grid** : Successfully advanced through the first round of the Flipkart Grid selection process, demonstrating competence and suitability for further evaluation.
